

ONE CHOICE MANY SOLUTIONS

WIND TURBINE MAINTENANCE & WINDFARM CONSTRUCTION

With BOSS Crane & Rigging, you get a crew of experts that include some of the most highly experienced technicians in the wind turbine industry. Supported by our new fleet of high-end equipment with an average age of less than two years, we offer you less breakdown time and cost savings as a result. Our multiple locations throughout Texas allow us to be readily available when you need quick response times. As part of the Bennett International Group family of companies, we can also transport and haul away your windfarm components.

“BOSS Crane & Rigging did a great job handling our two blade exchange projects. The cranes were ready on our schedule and your operators handled the project with professionalism and without incident. We definitely plan to use you on future projects.”
